About Me

Passionate about web development, I am constantly on the lookout for new technologies and trends. My training in computer science has given me solid skills in programming and web design. I am motivated, curious and ready to take on technical challenges to contribute to innovative projects

Education

- | | |
|---|-------------|
| Lycee Abderahim Bouabid <ul style="list-style-type: none">Baccalaureat en SVT | 2020 - 2021 |
| Ecole Marocaine Sciences et de l'Ingenieur <ul style="list-style-type: none">Master's in Computer Science and Networks | 2021 - Now |

Technical Stack

- **Languages::** C++,C,C,Java,Python,SQL,PL/SQL,NoSQL,HTML,CSS,JavaScript
- **Frameworks /Libraries:** NET ,Bootstrap ,React ,Django
- **Technologies:** Git,GitHub, MySQL ,Oracle
- **Cloud:** AWS
- **Design:** Figma, Adobe

Experience

- | | |
|--|---|
| LUMINALINK <ul style="list-style-type: none">Implementation and deployment of a serverless architecture on AWS for data and request management. Integration of a user interface with Angular, tested across three provided front-end interfaces.• Tools Used: AWS services(AWS Lambda, API Gateway, DynamoDB, S3,...) | github.com/CoffeeShop 
july 2024- August 2024 |
| PROVIROLL <ul style="list-style-type: none">Designed a detailed mockup of the company's website, ensuring an intuitive and modern user interface. Also created 3D design elements to enhance the visual experience and propose innovative concepts.• Tools Used: Figma , Adobe | August 2024 |

Projects Académique

- | | |
|--|------------|
| Hospital Management System <ul style="list-style-type: none">• Tools Used:C++ | April 2024 |
| Stock Management System <ul style="list-style-type: none">• Tools Used:C++ | April 2024 |

Online Taxi Reservation System

- Development of an online taxi reservation platform with an authentication system allowing users to log in as clients or drivers. The project includes an intuitive interface for booking, ride management, and profile updates.
- **Tools Used:**Python(Django),SQL,CSS,HTML

github.com/T-SIR

June 2024

Hotel Management System

- Development of a hospital management system to simplify patient, appointment, and medical resource management. The project includes a user-friendly interface for data entry and consultation, as well as a robust database for efficient storage.
- **Tools Used:**java (NetBeans),SQL

github.com/SBITAR

December 2024

Movie Management System

- Development of a website to manage a database of movies and actors with full CRUD functionality. The application offers a dynamic and responsive interface for organizing and consulting information in an intuitive and efficient manner.
- **Tools Used:**C (.NET),SQL ,JavaScript (React + Vite)
